

# TUVWXYZ Stars

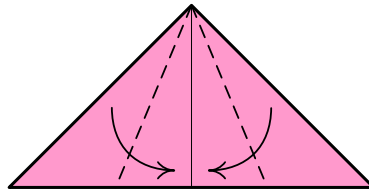

1. Fold like waterbomb base and unfold.

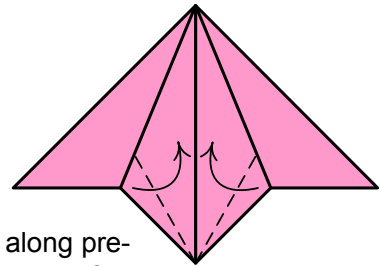

2. Crease to match dots, creasing only the parts shown.

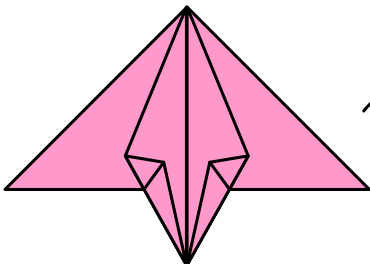

3. Form a waterbomb base.

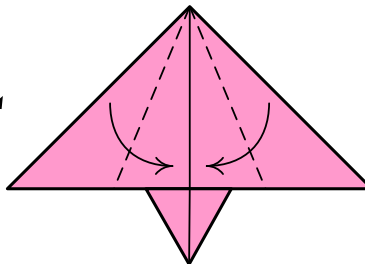

4. Fold to bring edges to center.

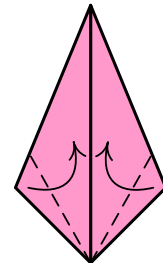

5. Fold along pre-existing crease from step 2.

6. Turn around.

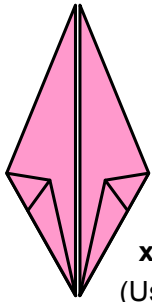

7. Repeat step 4.

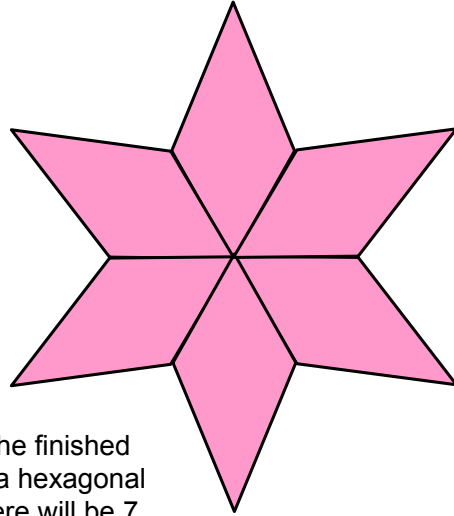

8. Valley fold to match edges behind.

### Finished Unit

**x 42**  
(Use 7 colors, 6  
pieces each.)

Each plane in the finished  
model will have a hexagonal  
star shape. There will be 7  
such planes intersecting  
each other.

### Assembly

Open bottom flaps out slightly. Two flaps lying on  
one edge of a unit together form a tab and the  
opening running at the center is a pocket. Insert tab  
inside pocket as shown. Then gently slide second  
unit to align with the first unit at the bottom.
